EDUCATION

Singapore University of Technology and Design

Sep 23 to Present

- Bachelor of Engineering (Computer Science and Design).
- Expected Graduation: May 2027.

Temasek Polytechnic

Apr 20 to May 23

- Diploma in Game Design & Development.
- GPA 3.71/4.0, Merit.
- Completed Common Infocomm Technology Programme.

CHIJ St Nicholas Girls School

Jan 16 to Nov 19

- GCE Ordinary Level Certificate.
- Received A1 in English Language, Literature in English, Mathematics and Humanities (SS, History).

WORK EXPERIENCE

SBS Transit – IT Intern

Sep 25 to Dec 25

- Implemented PDF export functions in .NET Core using Syncfusion for internal ASP.NET applications.
- Designed and developed an internal E-Card Application using ASP.NET and React, with an SQL database.
- Prototyped UI/UX for E-Card Application with client feedback using Figma.

STEAMunity - Design Mentor

Jun 24 to Jan 25

- Facilitated discussions in a team of 7 secondary and polytechnic students using design thinking principles.
- Led a team in rapid prototyping, pitching, and developing workable solutions.
- Liaised with Singapore Association of the Visually Handicapped (SAVH) to conduct user interviews and derive insights.

Digital Dream - Game Designer and Developer (Internship)

Sep 22 to Mar 23

- Designed and developed 3 interactive 2D games for a Mixed Reality (MR) room using Unity.
- Developed iFlip, an interactive book projection connected to a Mixed Reality (MR) Room using computer vision and Unity.
- Communicated with clients to bring their content ideas to life.

PROJECTS

BefriendersCircle – Caregiver Support Website

May 25 to Aug 25

- Managed a team in developing a feedback-driven caregiver support platform using React and Express.js.
- Developed an interactive 3D training simulation using Blender and threejs.
- Designed and implemented an elderly-friendly UI/UX for key stakeholders using Figma.

TaskTales – Gamified Task Management App

Jan 25 to April 25

- Designed a gamified task management app in a 7-person team to boost engagement and motivation.
- Prototyped an engaging user interface based on game design principles using Figma.
- Developed user-facing frontend of mobile application using Java UML and Android Studio.

Whiskers – Interactive Chatbot Robot

Jan 24 to Apr 24

- Worked in a 5-man team to design an interactive robot for commuters in Singapore University of Tech and Design (SUTD).
- Developed the movement and sensory system using Raspberry Pi 4 and electrical components.
- Ideated features to increase user engagement using design thinking principles.

Icarus – Bullet Hell Arcade Game

Dec 23 to Mar 24

- Developed a bullet hell arcade game based on Greek mythology using Godot.
- Designed and polished audio and pixel art visual assets using Audacity and Photopea.
- Showcased project on club arcade machine during SUTD Open House 2024 and 2025.

Lyf – AR Camera App

May 22 to Jun 22

- Designed an Augmented Reality (AR) camera mobile application based on property murals to develop community spirit.
- Developed AR features using Unity and Vuforia Engine, and designed sticker assets using Adobe Photoshop.
- Presented to key stakeholders during the official opening of Lyf property in one-north Singapore.

AWARDS

SBS Transit Hackathon 2025

Dec 24 to Jan 25

iLumi-Sync – Rail Station Power Optimization (3rd place)

- Developed a Wi-Fi-based remote lighting control system using ESP-32 and Google Sheets to communicate real-time data.
- Designed and programmed an intuitive interface with real-time data display for easy onboarding of station personnel.

SUTD Mindsports Game Jam 2024

Sep 24 to Oct 24

Blank Space – Point-and-Click Exploration Video Game (1st place)

- Ideated and developed a point-and-click exploration game within one week using Godot.
- Implemented procedural map generation and unique shaders for enhanced gameplay experience.

DELL InnovateFest 2024

Jun 24 to Sep 24

LepakLah! – Elderly Activity Management System (3rd place)

- Designed and developed a Flutter-based mobile application designed to match senior citizens to community activities and fellow residents at Lions Befrienders Active Aging Centre (AAC).
- Conducted user testing and interviews with 5 senior citizens to gain better understanding of key issues.

CO-CURRICULAR ACTIVITIES

SUTD Mindsports Club

Mar 25 to Present

Treasurer

- Managing club finances and purchases using Microsoft Excel.
- Collaborating with 6-person Main Committee to plan weekly sessions and events.

National Police Cadet Corp

Jul 21 to Dec 24

Cadet Inspector

- Planned and conducted weekly training sessions for cadets at secondary school level.
- Received the Home Team Corps (Team) Award in 2022 for execution of Area Camp at Pulau Ubin.

Adventure Club

Apr 21 to Apr 22

Honorary General Secretary

- Collaborated with a team of 13 members to plan and execute events such as the Virtual Adventure Challenge 2.0, to facilitate Covid-compliant outdoor activities.
- Recorded meeting minutes for formal meetings.

ADDITIONAL INFORMATION

- Programming: C#, Python, Java, JavaScript, HTML/CSS
- Game Development: Unity, Godot, Blender, Maya
- UI/UX & Design: Figma, Canva, Adobe Photoshop, Adobe XD
- Other Technical Skills: Web/App Development, AR, Computer Vision
- Fluent in English, Conversational in Mandarin
